

TRIDENS

INNOVATIVE IT SOLUTIONS

The **Company** You Keep.

A butterfly with brown and orange wings is perched on a cluster of red and yellow flowers. The background is a clear blue sky. The butterfly is facing left, and its wings are spread out.

About us

Tridens is an international company providing innovative **IT solutions**, **consulting**, and **software engineering services** to help its clients' businesses become **high-performance enterprises**.

Our **mission** is to give our customers a clear competitive edge by consistently delivering high quality products and services.

Our **vision** is to be a preferred partner for IT solutions, consulting and software engineering services with a reputation for providing the highest quality in terms of the following:

- Commitment to customer needs
- Innovative approaches and proven processes
- Comprehensive and exceptionally capable technological expertise
- A versatile and highly responsive professional team

Our values are as follows: **Quality, Transparency, Integrity, Responsibility, Innovation and Collaboration.**

Your **Input** affects Our Output

Why choose us?

We always deliver – on time and on target

We have more than ten years of experience in the software industry. Our team includes highly skilled, professional software developers who have a great deal of experience in many areas of their fields of expertise. Our engineers, having worked on numerous international projects, know how to manage such large projects and successfully complete them. Moreover, we always provide the highest quality software products at the lowest possible cost, and services are always delivered on time.

We are in the heart of Europe:

Our office is located in Maribor, Slovenia (EU). The nearest airports are Ljubljana, Maribor, Graz, and Zagreb. This advantageous location makes us a highly convenient, "near shore," outsourcing partner for our European customers.

What makes us unique:

- Significant cost reduction – up to 50%
- Reduced time to market – up to 50%
- Comprehensive and exceptionally capable technological expertise
- Outstanding professional team
- Intellectual property protection
- 100% guarantee: No Satisfaction = No Invoice

We always exceed expectations.

Our mission is to consistently exceed the expectations of our customers by providing high quality, flexible Information technology solutions on time, every time. Our ability to meet such challenges is the result of our proven excellence in building strong teams of dedicated software professionals, all of whom are focused on the individual needs of our customers.

“Boštjan is a very reliable and dedicated professional with excellent technical and project management skills. I had the opportunity to work with him on various outsourced development projects, and I was always im-pressed by his professional attitude and his dedication to the customer. I would highly recommend Boštjan for any development project.”

Thomas Durchdewald

Program Manager, Hewlett-Packard

“I can say without any hesitation that the quality and professionalism of Tridens and our customer relation with them have been way beyond our expectations. They quickly respond to our requirements and solve our problems with practical solutions.”

Dušan Gašperšič, TusMobil,

Billing and VAS department manager

How we do it

Flexibility

By outsourcing a portion of their development needs to Tridens, our customers gain a flexible and cost-effective resource enabling them to increase product ranges, decrease time to market, and significantly lower development costs.

Methodologies

By utilizing the project development lifecycle, we employ advanced techniques, such as OO analysis and design, rational unified process, or agile software development and design patterns.

Partnership

Tridens is focused on developing a long-term relationship with your company. With this goal in mind, we provide the responsive adaptability that best serves your unique business requirements, thus ensuring a successful partnership with us. You can choose a fixed price or a time and material business model.

Customer Security

All the work performed for our customers, and their intellectual property, is a sacred trust and will always remain confidential.

Services

Through our collaboration with state-of-the-art technological companies and other prominent corporations, we have acquired considerable proficiency in project management. We have developed sound procedures that ensure the highest quality and have achieved a primacy in innovative foresight that

enables our software development designers and our technology consultants to provide excellent support. Owing to the range and depth of our services, we can assist you by creating solutions for any of your problems and by defining techniques that will guarantee full customer satisfaction.

Expertise

Over the past several years, Tridens has gained experience by working on various international projects: both minor and major ones for companies ranging from small-scale businesses to large conglomerates.

By virtue of its strong software development background with IT integration services and solutions, Tridens is able to offer leading-edge expertise in many areas. Our platform and vendor-independent approach guarantees that we provide objective advice and deliver at the highest levels of quality, even in highly heterogeneous environments.

Tridens' main areas of expertise are as follows:

- Oracle BRM
- Mobile Applications
- Java
- Open source
- Service-oriented architecture (SOA)
